

# Spas and Hot Tubs

## Manage your risk!

**Note:** Unsafe electrical practices past and/or current can increase risk of potential shock and fire hazard.

Electrical  
Safety  
Authority

- 1. Use approved electrical products** - safe electrical products bear the mark of a recognized certification agency.
- 2. Ensure a safe connection** - spas and hot tubs must be grounded, or connected to a Ground Fault Circuit Interrupter (GFCI).
- 3. Protect your family and investment** - hire a licensed electrical contractor and request a copy of the "**Certificate of Inspection**" from the Electrical Safety Authority - your record electrical work meets Ontario's Safety requirements.

**RISK FACTOR**
