## BACKGROUND

[1] This Review Panel issued a Decision and Order which was released on August 26, 2011. The Order states in part that the Electrical Contractor Licence of Ivan's Electric Limited is to be suspended for a period of ninety (90) days commencing on September 9, 2011 and the Master Electrician Licence of Ivan Valovic is to be suspended commencing on September 9, 2011 for a period of ninety (90) days or until Mr. Valovic provides to the Director proof that he has attended a master electrician course and has successfully completed and passed the Master Electrician examination, whichever period is longer.

[2] Following the issuance of the Decision and Order, counsel for Ivan Valovic and Ivan's Electric Limited sent an email to the Director of Appeals submitting in part:

"Section 113.11(2) of the *Electricity Act* provides that if the Director suspends a licence subject to section 113.4(7), which is the case on this Appeal, the suspension does not take effect,

- (a) until the time for filing the notice of appeal with the Divisional Court under Section 113.10 expires; or
- (b) if a notice of appeal is filed with the Divisional Court until the final disposition of the appeal.

Mr. Moore went on to state that the Licencees are of the position that the time for suspension should not begin until 30 days after the Review Panel delivered the Decision and Order, which would be on September 26, 2011. Accordingly, he submits that the Licencees are seeking the Review Panel to amend the Decision and Order to reflect the operation of Section 113.11(2) of the *Act*.

[3] Following the email from Mr. Moore to the Director of Appeals, counsel for the Director, Bernard LeBlanc, sent an email to the Director of Appeals consenting to this Review Panel revising its Order in a manner consistent with Mr. Moore's request.

[4] Accordingly, this Review Panel hereby amends the Order which is part of its Decision issued on August 26, 2011 to state as follows:

## AMENDED ORDER

Pursuant to section 14(11) of Ontario Regulation 187/09 under the Safety and Consumer States Administration Act, 1996, the Review Panel hereby orders that:

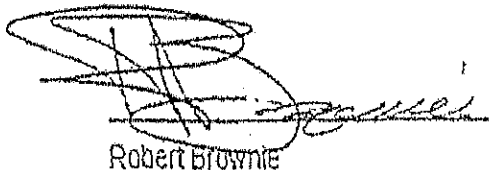

1. The Electrical contractor Licence of Ivan's Electric Limited be suspended for a period of 90 days commencing on September 26, 2011. Prior to September 26, 2011, all existing Wiring Notifications (permits) in Ivan's Electric Limited's name shall have the work completed and a final

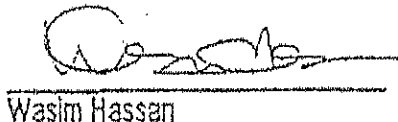

inspection scheduled with ESA or transferred to and completed by another Licensed Electrical Contractor. During the period of suspension neither the company nor its employees are permitted to carry out any activities under this Licence.

2. The Master Electrician Licence of Ivan Valovic be suspended commencing on September 26, 2011 for a period for 90 days or until Mr. Valovic provides to the Director proof that he has attended a master electrician training course and has successfully completed and passed the Master Electrician examination, whichever period is longer. During the period of suspension Ivan Valovic must cease being the designated master electrician for Ivan's Electric Limited and is not permitted to act as a master electrician or carry out any of the responsibilities of a designated master electrician on behalf of any electrical contractor.
3. Should a notice of appeal of this Amended Decision and Order be filed with the Divisional Court, the suspension of both licences as provided in paragraph 1 and 2 of this Amended Order shall be stayed until and subject to the final disposition of that appeal pursuant to Section 113.11(2) of the *Electricity Act*.
