

ESA offers an electrical safety course for police, fire and paramedic services based on the updated Electrical Safety Handbook for Emergency Responders. This ½ day course reviews the Electrical Safety Handbook for Emergency Responders with safety services who are called upon to respond to emergencies involving electrical systems. To register visit <https://www.pshsa.ca>.

Delivered by Public Services Health and Safety Association, Emergency Responders will learn to identify electrically hazardous situations involving fallen or low hanging power lines, electrical distribution equipment, substations, underground installations, and services to houses and industrial buildings.

Learn about the electrical distribution system and how to identify potential hazards when arriving first on scene.

LEARNING OBJECTIVES:

Recognize electrical hazards when attending an emergency scene involving underground or overhead power lines, substations, solar photovoltaic systems, electric and hybrid vehicles, etc.

Learn best practices and procedures to protect both emergency responders and victims when responding to emergency situations involving electrical hazards.

MISSION: Improve electrical safety for the well-being of the people of Ontario.

VISION: An Ontario where people can live, work and play safe from electrical harm.

TOPICS:

- Ground gradients
- Effects of electricity on the body
- Clothing and equipment
- Safe limits of approach
- Electrical distribution systems
- Powerline safety
- Electrical equipment fires
- Indoor and outdoor substations
- Electric and hybrid vehicles
- Solar photovoltaic technologies
- Illegal activities (grow ops, copper theft)
- Wind turbines

WHAT TO BRING:

- Pen, pencil, highlighter

PLEASE NOTE: This course does not attempt to render engineering or other professional services. If such services are required, the assistance of an appropriate professional should be sought.

MISSION: Improve electrical safety for the well-being of the people of Ontario.

VISION: An Ontario where people can live, work and play safe from electrical harm.
