John Brooks Company Ltd. Voluntarily Recalls COPPUS Portable Ventilators Due to Non-Compliance to Canadian Safety Standard

The Electrical Safety Authority is notifying the public that John Brooks Company Ltd. has announced a voluntary recall of the following product. Users should follow the instructions outlined in this notice immediately or as soon as possible.

Name of Product: COPPUS Portable Ventilators

Model Numbers: Air MAX-12; Cadet VAC; Cadet VEP; DDHK 24K; DDHK 30K; PV-100; TA16; VAN 175; VAN 250; VENTAIR TM-4; VENTAIR TM-8

Number of Units: Approximately 20

Manufacturer/Importer: COPPUS / John Brooks Company Ltd.

Manufactured in: Florida, USA

Hazard: While these products bear NEC approval stickers for sale in the USA, these products are unapproved for sale in Canada, have not been certified to Canadian Safety Standards, and do not bear a recognized approval mark for Ontario.

Incidents/Injuries: None

Sold by: John Brooks Company Ltd.

When distributed: 08 2017 – 01 2024

Remedy: Users are required to immediately stop using their product. If they wish to continue using their product, they should arrange an inspection by using the contact information provided in this notice, to have a recognized approval agency inspect and approve their product. Approval is achieved by having their product bear one of the recognized approval marks shown on this site <https://esasafe.com/electrical-products/recognized-certification-marks/>.

Contact Information: Contact Customer Care at John Brooks Company. Toll free 1-877-624-5757 Or by email at customercare@johnbrooks.ca

Remarks: The recalled units are not certified to Canadian Standards by a Certification Agency.
