NOTICE REGARDING TRAINING AND MASTER ELECTRICIAN EXAMS

Safety & Technical Training

In response to the evolving COVID-19 pandemic, ESA will not be scheduling additional public classroom courses at this time. We will continue to monitor provincial and regional health measures, and key public health indicators.

Online courses are continuing as scheduled. Virtual classroom courses will be offered early 2021. Additional information will be posted to the Safety & Technical Training section of our website as it becomes available.

Master Electrician Examinations

ESA is currently facing a high demand for Master Electrician Examinations (ME Exam). Due to the ongoing Pandemic situation, examination offerings are limited.

Please note that your health and safety, as well as the health and safety of our representatives is our highest priority. ESA is working on adding more ME Exam dates for 2021. Check our website regularly for updates.

ESA is also working on a virtual proctor option allowing you to write the ME Exam from the safety of your home, provided you have secure internet access and a computer with a web-camera. If you would prefer to take a virtually-proctored ME Exam, we expect them to be available early in 2021. We will post updates on our website once available.

If you have questions or concerns, please contact ESA's Customer Service Centre at 1-877-372-7233. We ask for your patience and understanding as we continue to respond to evolving circumstances.
